

## **Voluntary Remediation Program (VRP) Site Specific Summary**

December 31, 2015

### VRP00073 BASF Corporation, Williamsburg Plant

No VRP report activity reported for the period however active work continues with RCRA staff.

### VRP00107 Portsmouth Manufactured Gas Plant

Review was completed of the Sediment Restoration Completion Report, the Annual Groundwater Monitoring Report, and the Storm Sewer Lining Report. The next step in the process is for the participant to prepare and submit an updated Risk Assessment and Remediation Completion Report for the Fort Nelson Park soil remediation.

### VRP00128 Petersburg Town Gas Plant

An inquiry has been made to the participant requesting an update on the progress/status regarding the Remedial Action Plan previously approved by DEQ with comments.

### VRP00137 AAF/McQuay

An Indoor Air Sampling Report was submitted and reviewed. An updated Human Health Risk Assessment and Soil Management Plan were submitted and will be reviewed/evaluated by DEQ.

### VRP00173 BASF Portsmouth (Hoechst Celanese Corp.)

The Certificate with deed restrictions was recorded in the local land records for Portsmouth and a certified copy was sent to DEQ.

### VRP00190 Virginia Panel Facility

No activity this reporting period.

### VRP00210 West Point Paper Mill

The Certificate of Completion was issued in March 2015.

### VRP00241 Alexandria Town Gas

**Groundwater Remediation System-** The three-stage groundwater treatment system consisting of an oil-water separation, biosparging, and filtration treatment zones was installed during the past year. The system has been operating full time since January 2014. Initial data indicate that the system is preventing contaminated groundwater from reaching the river. Free product gauging and recovery efforts have continued during this time period.

**Sediment Remediation Plan-** A sediment remediation plan and design has been prepared for implementation at the site. The plan outlines a program to dredge sediment with residual coal tar constituents from the near-shore area of the Potomac River and replace said material with a multi-layered protective cap system. The protective cap will serve to a) control vertical groundwater migration, b) provide additional ground water filtration, c) armor the system against aggressive wave action/storm fetch, and d) provide for a naturalized appearance at original grade. The City is planning to initiate the bid process in October to obtain contractor services needed to undertake the proposed activities. The City is also pursuing the permits needed for river dredging. Routine maintenance on the existing booms is being performed and will continue for as long as is needed.

VRP00244 Coalter Street Manufactured Gas Plant

An inquiry has been made to the participant requesting an update on the progress/status regarding the Remedial Action Plan previously approved by DEQ with comments.

VRP00260 Fairfax Lumber and Millwork

New site number assigned VRP 00595. DEQ received an email from the consultant indicating that VDOT is preparing to finalize an SCR, Risk Assessment, and Remedial Action Plan in October 2015.

VRP00270 Carlyle Block P

The Certificate was issued and subsequently recorded on August 24, 2015.

VRP00278 GE Tidewater Service Center

A phone call was held with the consultant in August 2015. Additional on-site and off-site data was collected in 2014 to update the Site Characterization Report and Risk Assessment. The participant is in negotiations with the site property owner regarding selection/completion of remedial actions.

VRP00294 General Chemical-Hopewell Works

The consultant submitted a RAP and draft Certificate on July 30, 2015 in response to a conditioned SCR concurrence letter dated January 7, 2013. A damaged monitoring well was abandoned and replaced in September 2013. PCE continues to be detected. As requested, the consultant has attempted to get an interpretation of local groundwater use ordinance for the City in order to address potential risks presented by offsite groundwater contamination. If the interpretation cannot be obtained, additional groundwater characterization will be necessary.

VRP00308 Hess Corporation

The Phytoremediation System remains operational and the DNAPL recovery system has been repaired/restarted. A meeting was held in July 2015 with the participant to discuss the status of the project. A Status Report was submitted and is currently under review. The DEQ Regional Office conducted a RCRA Compliance Inspection for the DNAPL system.

VRP00315 Rocketts Landing

Development of site continues. Original VRP site has been sub-parceled and progress monitored via sub parcels.

VRP00320 Altavista Wastewater Treatment Plant

Altavista has moved forward on various phyto and bio remediation projects without DEQ approval and are completing this work at their own risk. DEQ has initiated the termination process and an informal fact finding hearing will be scheduled for early fall 2015 before a hearing officer.

VRP00326 Former Fashion Care Cleaners

The 2013 Certificate for the Site required a PE certification of the effectiveness of the SSDS installed in the new retail space on-site. Counsel for the participant provided the certification in April 2015. There are no further actions required at this Site per the Certificate.

VRP00334 Arlington Industrial Area/Crescent Potomac Properties

Arlington submitted a draft Certificate for the property and comments were sent back to the City for both Parcels 14 and 15. Issuance of the Certificate is expected in the 4<sup>th</sup> quarter of 2015.

VRP00338 Cintas Corporation – Portsmouth

DEQ issued comments on the Site Characterization Report (SCR) and Risk Assessment (RA) in April 2015. A meeting was subsequently held to discuss additional items needed to complete the SCR/RA as well as the proposed and interim remedial actions.

VRP00356 Oakville Industrial Park

Discussions have been ongoing regarding project completion as a commercial property and a new owner re-entering the VRP to pursue a residential use of the property. In July 2015, the consultant submitted plans for an SSDS installation in the existing structure. DEQ review of the plan resulted in expansion of the SSDS system into additional portions of the building. On September 29, 2015, the consultant submitted proposed locations for deep soil gas sampling along Site property line to address potential for offsite VI risks. DEQ concurred with the locations the same day.

VRP00362 Hagwoods Cleaners

DEQ received an email from the consultant in mid-June indicating that the Participant was prepared to attempt some in-site groundwater remediation. New RPM sent an email on August 14, 2015 introducing herself and requested a phone call to receive an update. No response received.

VRP00386 Pivotal Propane of VA Inc. (formerly Steuart Investment Company Site)

A meeting was held with the consultant in July 2015 to discuss the draft Demonstration of Completion Report (DOC). The consultant plans to finalize the DOC for submittal, and also move forward with issuing the Public Notice.

VRP00412 Former Masonite/Knight-Celotex

DEQ received a 2104 Remedial Action Summary Report in May.

VRP00414 Virginia Dry Cleaners

DEQ received a Progress Report in July 2015 summarizing soil vapor extraction progress to date. New RPM sent an email on August 14, 2015 introducing herself and requested a phone call to receive an update. No response received.

VRP00418 Sudley Towne Plaza

A project update was requested by VRP staff in April 2015. The consultant reported that additional wells were being installed in the source area and that the SCR and risk assessment

would be submitted soon. The SCR RA was submitted on June 18, 2015. VRP staff completed a review of the SCR RA and provided comments on August 7, 2015.

VRP00421 Brighton Cleaners

Several phone calls were held with the consultant to discuss the data needs for the Site Characterization Report and Risk Assessment. Additional groundwater and sub-slab soil gas sampling is being conducted. Submittal of the report(s) is expected in late 2015.

VRP00422 Schenkel Rose (H. R. Schenkel, Inc. or Lynchburg Grows)

Lynchburg Grows completed resampling for both trivalent and hexavalent chromium. Verbal results and consultation have been provided and submittal of the results are pending.

VRP00423 Former Allen-Morrison Site

The City's consultants met with DEQ staff on July 30, 2015 to discuss Demonstration of Completion Report and strategy to complete Certificate which is expected to be issued during next reporting period.

VRP 00430 Water 's Ed ge Apartments

There was no activity for this project during the reporting period.

VRP00449 Main Street Marketplace

The Participant submitted a draft Certificate to VDEQ on April 14, 2015. The Certificate is currently under review by DEQ staff.

VRP00454 Breezewood Shopping Center - Nu-Look and Soap Suds Cleaners

The participant is evaluating the consultant's proposal to install two Sub-Slab Depressurization Systems at the Shopping Center.

VRP00457 Dulles Discovery Property

Of the 4 commercial properties, located along the northern edge of the site, the lot designated for a day care center was sold. The new property owner opted not to participate in the VRP. Peterson Companies, the Participant noted in the application, is now handling the day care parcel as an "off site" property in its risk assessment evaluations.

VRP00460 2<sup>nd</sup> and Jackson Street Site

In June 2015, the consultant provided a response to comments resulting from a review of the revised SCR and risk assessment. The response included additional sampling results for soil gas and groundwater along with a revised risk assessment. BioChlor was also used to demonstrate plume stability. This submission is awaiting review.

VRP00461 Virginia Concrete Company Plant

The Certificate was issued and subsequently recorded on August 24, 2015.

VRP00462 Staunton Metals Recyclers

The Participant completed an EPA approved sampling plan to address PCBs under TSCA in December of 2012. EPA is lead on PCB impacts, VRP is addressing metals. VRP activities will resume once EPA approves PCB cleanup.

VRP00463 Arlington Ridge Shopping Center No activity reported during this reporting period. New RPM sent an email on August 14, 2015 introducing herself and requested a phone call to receive an update. Consultant called on August 27, 2015 and advised the project is on hold for a few months while participant adjust priorities.

VRP00470 Chesapeake Propane

No activity during this reporting period.

VRP00484 Ahns Cleaners

An addendum to the RAP was submitted in early April 2015 to address DEQ's review comments. Comments resulting from DEQ's review of the RAP addendum mostly pertained to adjusting for proper SSDS and SVE vacuum. Comments were provided on April 15, 2015.

VRP00489 The Village Shopping Center:

A review of the revised demonstration of completion and updated risk assessment has been ongoing while the consultant has tried to obtain an interpretation of local groundwater use ordinance. The interpretation is necessary to ensure that there is no risk associated with potable use of groundwater. Based on the review the interpretation of the plume may be adjusted. The DoC indicates that source area soil and groundwater contamination has been substantially reduced.

VRP00495 Simmons Rand Property (former)

Additional field work was performed in 2014 and early 2015. A conference call was held on 9/17/15 with participant and consultant to discuss results of most recent field work and potential remedial actions. One sample in an area of the Site that may be donated for residential use is above residential screening levels for lead and PAHs. Some excavation and verification sampling may be necessary. A complete SCR, risk assessment and remedial action plan are in the works.

VRP00496 Columbus McKinnon Corporation

Additional soil, soil-gas and groundwater sampling was completed and the consultant is preparing an updated Site Characterization Report and Risk Assessment for submittal to DEQ.

VRP00500 Great Bridge Cleaners

The participant finally provided complete documentation of the Trustee on September 17, 2015. The final Certificate was completed and issued on September 29, 2015. DEQ is currently awaiting submittal of the recorded Certificate.

VRP00506 Virginia Carolina Chemical

The participant/consultant submitted final language for the draft VRP Certificate and UECA Environmental Covenant. DEQ is in the process of reviewing the drafts.

VRP00507 Bergmann's Cleaning/Lee Highway Site

The development of the site has been completed. A response to RAP review comments of 5/22/14 was provided on 8/11/15. A review of the draft public notice was completed and concurrence with the RAP was provided on 8/13/15. The public notice and comment period ran from 8/20/15 until 9/22/15 with no comments received. DEQ awaits submittal of the demonstration of completion.

VRP00509 Former BGF Industries Facility

A phone call is pending from the consultant to discuss the previous DEQ Comments for the SCR and Risk Assessment.

VRP00511 Telegraph Road Landfill – Eastern Mound

The facility has adequately addressed off-site migration of Landfill Gas (LFG) and is in compliance with its LFG permit. All other routine requirements of the VRP have been completed. DEQ is in the process of finalizing the VRP Certificate for issuance to the participant.

VRP00513 Catalanos Cleaners

The updated Site Characterization Report and Risk Assessment were approved by DEQ in September 2015. DEQ has accepted the proposed remediation (from the previously submitted Remedial Action Plan) which consists of engineering and institutional controls.

VRP00516 Clothing Care

DEQ received the 7<sup>th</sup> Post-Remediation Annual Monitoring Report. Additionally, DEQ received a Site Boundaries Revision via email in early July.

VRP00520 Del Ray Shopping Center

A post-remediation monitoring informational report was submitted on July 23, 2015. VDEQ provided input concerning the content of the report on August 28, 2015 concurring with the report's recommendations and noting the comments and suggested edits DEQ provided were for consideration when developing the next report and did not require a response VRP00523 The Commons Shopping Center  
No activity during this reporting period.

VRP00525 Cintas-Former Metropolitan Uniform Services

The initial risk assessment for the site was received on April 27, 2015. On May 27, 2015, a Microsoft Lync conference call was held with the consultant to preview recent MIP survey results and modeling. The MIP modeling supports a potential offsite source. A response to DEQ's review comments on the SCR and design basis memo (DBM) for the remedial action plan were submitted on September 15, 2015. The DBM contemplates source area soil removal.

VRP00535 Degen Property

No activity was reported this period however the participant verbally indicated desire to remain in VRP.

VRP00536 Richmond BMW/Crown BMW

As requested by risk assessment staff, one additional round of indoor air samples was collected to account for seasonal variability. The results were submitted to DEQ on 3/31/15. After review by DEQ risk assessment staff a letter concurring with the risk assessment was provided on June 24, 2015.

VRP00538 Siegwerk Publication USA Inc.

Conversations with the project consultant indicate that the remediation effort continues with the approximately 16 tons of VOCs extracted from the subsurface.

VRP00540 Sully Place Shopping Center-Parcel 16D

A risk assessment was submitted on 2/18/15. A review of the risk assessment was completed and it was found to be acceptable. Concurrence was granted in a letter in July 2015..

VRP00541 Green Run Square

On June 9, 2015, the consultant reported in an email that soil vapor samples had been taken beneath the adjacent property using directional geoprobe. It was indicated that VOC levels in soil gas were very low however no formal report has been provided.

VRP00545 Wornom Parcels

No activity was reported this period. An inquiry to the participant has been made requesting a status update.

VRP00546 Danville Riverside Complex #8

DEQ is awaiting submittal of a revised Site Characterization Report. An inquiry to the consultant has been made requesting a status update.

VRP00547 Disposition Parcel 209

Monitoring Reports for groundwater and indoor air collected in 2013 and 2014 were submitted and will be reviewed/evaluated by DEQ.

VRP00548 Potomac Yard Landbay G

Three parcels of the Landbay G site (C, F, and H) have completed development as separate VRP sites. The other parcels are to be re-developed in accordance with the approved site-wide RAP.

VRP00549 3555 & 3565 Chain Bridge Road (Residence Inn)

The Certificate was issued and subsequently recorded on September 1, 2015.

VRP00552 Pear Tree Village Center

Meeting with the participant, their counsel and consultant, and consultant for a potential purchaser took place on 4/6/15. On 5/4/15 DEQ was notified that the property had been sold. The consultant indicated that additional site characterization investigation was being planned. A site visit was conducted on 5/6/15 to observe potential well locations and site features. A scope of work was provided by the consultant and a meetin was held later in the month to discuss additional SCR effort and offsite soil vapor assessment. The scope of work may need adjustment based on groundwater surface evaluation.

VRP00553 Concord Shopping Center

The consultant provided a project update on 4/29/15. Two rounds of oxidant injections have been conducted and groundwater sampling was planned for the 3<sup>rd</sup> quarter of 2015.

VRP00554 Crest Cleaners (Huntsman Square)

DEQ notified the consultant via email that the SCR Addendum had been reviewed with comments.

VRP00555 Hunter Property – Parcel6A.

The Site Characterization Report was submitted in May 2015 and a remedial action plan was submitted in July. Methane generation is reported to be the primary issue at the site. A review of both documents was completed and comments were provided in a letter dated 9/11/15.

VRP00556 (Former) Republic Creosote

A response to DEQ comments on the Site Characterization Report and Risk Assessment was submitted and will be reviewed.

VRP00560 Davis Industries Site (former)

Arlington submitted a draft Certificate for the property and comments were sent back to the City for both Parcels 14 and 15. Issuance of the Certificate is expected in the 4<sup>th</sup> quarter of 2015.

VRP00563 Backlick Road Property

A second round of sampling occurred in June to support preparation of the Site Characterization Report.

VRP00564 Neuman Aluminum USA

No activity was reported this period.

VRP00565 Allison and Addison Site

DEQ received and reviewed a Remedial Action Completion Report in May.

VRP00566 Former A.O. Smith Facility

Responses to DEQ comment letter received in March 2015.

VRP00568 Ferry Farms Dry Cleaner

No activity by the participant this reporting period.

VRP00569 1801 Commerce Road (Former RUS Facility)

The site was purchased by the City of Richmond with the intent of remodeling the building for office space. On November 6, 2015, VRP staff met with the City of Richmond to discuss the VRP process and potential for the City to re-enroll the site into the VRP. No further action has occurred since the meeting.

VRP00572 Telegraph Road Landfill – Western Mound

The facility has adequately addressed off-site migration of Landfill Gas (LFG) and is in compliance with its LFG permit. The approved Remedial Action Plan, consisting of engineering and institutional controls, will be implemented once re-development of the site commences.

VRP00573 Richmond City Garage Complex

DEQ is awaiting an update from the participant regarding details/changes in the proposed redevelopment plan for the site.

VRP00575 Hopeman Brothers

An onsite meeting and site visit took place on 10/31/14. Additional wells and sampling have taken place as a result of DEQ comments on the site characterization report. A revised SCR has been drafted and will be submitted in mid October 2015.

VRP00578 Dulles Discovery 3220 Centreville Road

No project activity reported during this reporting period.

VRP00581 Campostella Square

No activity by the participant this reporting period.

VRP00582 Meadow Landing South

No activity by the participant this reporting period.

VRP00583 General Electric Power and Water

In a phone conversation last reporting period, the participant indicated that they would terminate participation however, no action has been taken.

VRP00585 Alexandria Renew Enterprises

The participant is wrapping up the large redevelopment project, and concurrent remediation. The Demonstration of Completion report is also being prepared for submittal in late 2015 or early 2016.

VRP00588 City Walk Development

Certificate issued February 2015.

VRP00590 Kinder Morgan Money Point Terminal

DEQ received and reviewed a Site Characterization Report.

VRP 00593 Potomac Yard Landbay L

DEQ reviewed the Public Notice and Demonstration of Completion response to comments. The Certificate was issued.

VRP 00598 Albano Cleaners

Risk Assessment comments sent to consultant. A revised SCR RA was received in September 2014

VRP 00595 Former Fairfax Lumber (VDOT)

DEQ received an email from the consultant on October 16, 2015 indicating that VDOT is preparing to finalize an SCR, Risk Assessment, and Remedial Action Plan and will submit it to DEQ by November 16, 2015.

VRP00603 Fox Homes

Participant submitted the Site Investigation & Risk & Remedial Assessment Report on August 17, 2015 which is currently under DEQ review.

VRP00604 Former American Sign & Flag Company.

After a period of inactivity this office received an update of VRP activities on September 29, 2014. The update included preliminary results from 2013 field work. A SCR and risk assessment is forthcoming.

VRP00605 Former Spicer Property

A response to DEQ's SCR and risk assessment (SCRRA) review comments and a revised SCRRA were submitted on August 11, 2015. DEQ completed a review of the revision and concurred with the SCR in a letter dated August 14, 2015. The Remedial Action Plan was submitted on 9/8/15. Nearly all contaminated soil was excavated. VOC's in groundwater are from offsite sources and an extensive vapor barrier and SSDS have been installed. .

VRP 00606 Carlyle Block 26B

The Certificate was issued and subsequently recorded on August 24, 2015.

VRP 00607 Ford Area 3 & 4

Ford has retaken possession of this portion of the property and had several conference calls regarding revising the Area 3 boundaries and developing a Certificate for a revised Area 3 by the end of 2015. A revised risk assessment was submitted in August 2015 to reflect the revised Site boundaries.

VRP 00608 Long Bridge Park - Aquatics Center

Arlington and DEQ staff conducted a conference call to discuss this portion of the Long Bridge Park site and the next three phases of work to be completed. At this point the phases and the work to be completed during each portion are under revision due to project costs.

VRP 00610 Fairfax Centre I Shopping Center

A risk assessment was submitted by the consultant in May 2015 and is currently under review. Review comments should be provided to the participant in late October 2015.

VRP 00611 Former Stillwater Textile Plant

The engineering controls (filling and capping) have been mostly completed per the consultant for the project. The next step is to submit the Demonstration of Completion report once the approved remedial actions have been performed.

VRP 00612 Former Burlington Hurt

Site withdrawn from the VRP

VRP00613 Former Block Parcel – Hess Corp

A meeting was held in July 2015 with the participant and consultant. The proposed sampling plan was discussed.

VRP00614 Parcel B1 – Hess Corp

A meeting was held in July 2015 with the participant and consultant. The proposed sampling plan was discussed.

VRP00615 Heritage Village

DEQ was notified via email in early May that 3 additional deep wells would be installed prior to submission of an SCR Addendum.

VRP 00616 Clover Tysons

On April 7, 2015, DEQ concurred that local ordinance and a well survey performed by the consultant adequately addresses potential risk associated with offsite migration of contaminants.

VRP00617 Parcel H, Landbay G

The Certification of Satisfactory Completion of Remediation (Certificate) was issued in June 2015. The Certificate was signed by the participant and recorded in the land records of the City of Alexandria in July 2015.

VRP00618 Safeway Store #3250

DEQ received and reviewed an updated SCR. VRP 00619 Annandale Shopping Center  
A SCR was submitted by the consultant on October 7, 2015 and awaits review.

VRP00620 American Safety Razor Site

A SCR was submitted by the consultant on July 1, 2015. A meeting was held at DEQ Valley Regional Office (VRO) on August 26, 2015. The consultant provided an overview of the SCR and discussed potential remedial actions. Water permit requirements were discussed with VRO staff.

VRP00621 Atlantic Creosote

DEQ received and reviewed the Upland SCR.

VRP00623 Dabney Run

The VDEQ Risk Assessor and RPM conducted a site visit in October 2014 with the consultant. Discussions occurred in November and December 2014 to determine details of additional sampling associated with the SCR. Results were received and reviewed in January and February 2015 and a response was submitted by VDEQ on February 11, 2015. Additional monitoring was conducted in March 2015 and results received in April 2015. A conference call was held on April 17, 2015 to discuss finalization of the SCR.

VRP00624 Kempsville Crossing

DEQ received and reviewed an SCR and Remediation Report.

VRP00626 Accotink Village

The Certificate was issued in September.

VRP00628 Norfolk Welding

A Site Characterization Addendum was received on 5/9/2015 and reviewed by DEQ. After subsequent meetings and discussion with the facility representatives a work plan to conduct a limited soil removal was submitted January 12, 2016. This plan is intended to address the remaining risk assessment concerns and is currently under review by DEQ.

VRP00629 Potomac Yard Landbay H&I

The Certificate was issued and subsequently recorded on September 16, 2015.

VRP00630 Penn Daw Plaza

Work plan for a soil removal action and sampling is being prepared.

VRP00631 Statesman Park Landfill

The Risk Assessment was reviewed and finalized and a DRAFT Certificate reviewed.

VRP00632 Crop Production Services

Onsite Kickoff Meeting occurred in Mar 2015. Requested another round of sampling that is scheduled for Jul 2015.

VRP00633 Former Reynolds South Plant

A status update was provided by the consultant in September 2015. Significant progress has been made toward completing the Site Characterization and Risk Assessment (SCR/RA). Activities performed include installation of additional monitoring wells, multiple sampling events, and installation of engineering controls concurrent with site redevelopment. The proposed submittal date for the SCR and RA is late fall 2015.

VRP00634 Hampton Inn & Suites

During the Spring 2015 SCR review, DEQ requested a 2<sup>nd</sup> round of GW and Subslab sampling. DEQ conducted a March 2015 site visit to observe the site.

VRP00635 Hilltop Center

DEQ received and reviewed a Remaining Issues report.

VRP 00640, Robert's Carpet and Oriental Rug

On February 5, 2015 the consultant provided a work plan for site investigation in support of an SCR. Results of a cursory review were discussed in a phone call with the consultant on February 12, 2015. There has not been any activity since.

VRP00641 7312 Richmond Hwy – CVS 2004

DEQ received and reviewed a Work Plan for Site Characterization report.

VRP00642 Jackson Crossing

DEQ reviewed the Site Characterization Report and Risk Assessment in August 2015 and is requesting some follow-up reporting.

VRP00643 Former Borrow Pit

A meeting with the participant, consultant and participant's counsel took place on September 14, 2015. Site history and SCR field work plans were discussed.

VRP00644 Dredge Spoils Area

A meeting with the participant, consultant and participant's counsel took place on September 14, 2015. Site history and SCR field work plans were discussed.

VRP00645 Eskridge Road

No project activity reported this reporting period.

VRP00646 Former Laundry Salon

The site was determined to be eligible to participate in the VRP program in June 2015 and the Phase 2 fee was paid in July 2015. An onsite meeting was held on July 30, 2015, with the site owner/participant and their consultant. Additional soil vapor and sub-slab vapor sampling was planned. Vapor sampling results were received on September 8, 2015.

VRP00647 Cintas Culpeper

The application and relevant records are currently being reviewed for eligibility. DEQ's Northern Regional Office UST program has a release investigation underway and has not made an eligibility determination.

VRP00648 Hercules-Covington

The Participant met with staff in July 2015 and submitted an outline for the development of the Site Characterization Report.

VRP00649 – Parkside Plaza Shopping Center, Former Perma Clean

The enrollment fee was paid and the Site Characterization Report and Risk Assessment have been submitted and will be reviewed by DEQ.

VRP00650 – Vantage at Merrifield

The site paid the enrollment fee and a kick-off meeting was held with the participant and consultant to discuss the VRP process and requirements.

VRP00651 – United Scrap Metal of Virginia/former Hanson Pipe

Participant was determined to be eligible and has paid all fees. A kickoff meeting was held on June 18, 2015 to discuss existing data and gaps and the site is moving forward.

VRP00652 Shirley Industrial Complex

The application for this site was received in April 2015 and eligibility was determined on June 15, 2015. The Phase 2 fee has been paid and the site was considered enrolled in the VRP on September 8, 2015.

VRP00653 – Columbia Pike Village Center

An application was received and granted eligibility. The Site Characterization Report and Risk Assessment was submitted to DEQ on 11/9/2015. This document is currently being reviewed by DEQ staff.

VRP00654 - Rushmark Eisenhower

The VRP application was submitted in June 2015. The site was deemed eligible to participate in the VRP and paid the enrollment fee. The Site Characterization Report and Risk Assessment have been submitted and will be reviewed by DEQ.

VRP00655 – Sunnyside Plaza Shopping Center

The VRP application was submitted in June 2015. The site was deemed eligible to participate in the VRP and DEQ is awaiting payment of the enrollment fee.

VRP00656 – 1527-1529 Main Street

An application was received and granted eligibility.

VRP00657 Reston Heights

The application and Phase 1 fee for this site was received on June 25, 2015. The site was deemed eligible for participation in the VRP on September 8, 2015.

VRP00660 - Westwood Center (D&D Cleaners)

The VRP application was submitted in July 2015. The site was deemed eligible to participate in the VRP and DEQ is awaiting payment of the enrollment fee.

VRP00661 – Suffolk Finney Property

The VRP application was submitted in August 2015. The site was deemed eligible to participate in the VRP and DEQ is awaiting payment of the enrollment fee.

VRP00662, NASA Wallops WFF Pad 0A

Site was determined eligible to enroll the pad location and a introductory meeting and site visit has taken place. Participant submitted a Site Characterization Report and is gathering additional information and monitoring current groundwater conditions.

VRP00663, Ford Area 3 (Revised) and Parcel Y

Ford divided Area 3 and requested a Certificate on this subparcel and the Certificate was issued in the last quarter of 2015.

VRP00664, 3507 Columbia Pike

The VRP application was submitted approved in December 2015 and the site was deemed eligible to participate in the VRP. The enrollment fee has been received and a “Kickoff Meeting” with the applicant is being scheduled.

VRP0665, Danville Research Center

Application has been approved and the was determined to be eligible for the VRP on 12/3/2015.
